**Report No. SAT-00688**

**Friday May 7, 2010**

## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-AMD-20100302-00038**    E S2787    Intelsat North America LLC  
Date Filed: 03/02/2010 14:11:52:17000  
Amendment

Intelsat North America, LLC seeks to amend its application to launch and operate the Galaxy KA space station at the 89.1° W.L. orbital location in the Ka-bands (see IBFS File No. SAT-LOA-20090227-00029). Intelsat states that it no longer seeks authority to operate Galaxy KA in the 18.3-18.8 GHz (space-to-Earth) and 28.35-28.6 GHz and 29.25-29.5 GHz (Earth-to-space) frequency bands. In addition, Intelsat states that it no longer seeks authority for a beam that would have provided service to South America. Intelsat states that Galaxy KA will replace the Ka-band portion of the Galaxy 28 satellite at the 89° W.L. orbital location and should be treated as a replacement satellite under Section 25.165(e) of the Commission's rules. Accordingly, Intelsat requests grant of the amended application without milestones or bonds and outside the Commission's satellite processing "queue."

---

**SAT-MOD-20100405-00064**    E S2358    SkyTerra Subsidiary LLC  
Date Filed: 04/05/2010 15:31:37:23000  
Modification

SkyTerra Subsidiary LLC requests a five-month extension, until October 31, 2010, of the launch and begin operations milestone for the SkyTerra 1 space station. SkyTerra also requests waiver of the requirement in 47 CFR § 25.283(c) to relieve pressure vessels when decommissioning a space station at the end of its service life.
